A world-class opportunity

Harbour Air Aerospace Services is the maintenance branch of the Harbour Air Group. Founded in 1982 and now comprised of Harbour Air Seaplanes, Whistler Air & Saltspring Air, the Harbour Air Group operates and maintains a showcase fleet of over 40 seaplanes, making it one of the largest seaplane airlines in the world. From line maintenance to complete overhaul, Harbour Air Aerospace Services supports the operation of scheduled flights, tours and charters serving over 450,000 passengers annually.

The foundation of Harbour Air's success is an experienced, dedicated and talented team of seaplane professionals, working within an industry-leading safety culture. We are committed to inspire and serve one another to achieve extraordinary success, and we're looking for enthusiastic, hard-working people to grow with us!

Award-winning team spirit!

What we do As an ambitious and growing company, advancement and experience opportunities abound for new and existing employees. From flight systems to power plants, our maintenance teams gain a well-rounded variety of experience servicing, repairing and performing heavy maintenance. Career opportunities with Harbour Air Aerospace Services are limited only by your passion to learn; our goal is to support your pursuit of excellence in aviation.
